Our Focus

CLIMATE INVESTMENTS : LOWER CARBON VIA INVESTING IN SOLUTIONS

- Invest
- Implement
- Achieve impact at a global scale

Reduce methane emissions through detection, measurement & mitigation

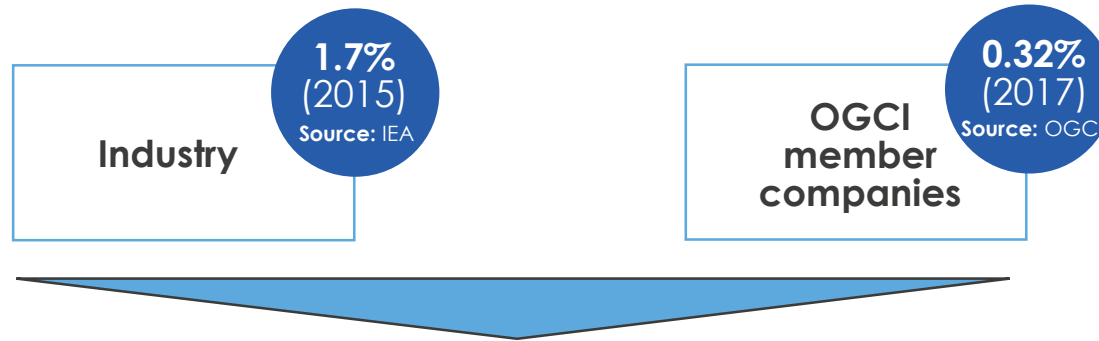

Reduce carbon dioxide emissions, by increasing energy efficiency in power, industry and transport

Recycle and store carbon dioxide (CCUS) in applications such as industrial processes and power generation

Methane challenges to overcome

Methane Intensity from the Oil & Gas Industry...

... highlights three challenges that OGCI & the rest of the O&G industry need to rapidly overcome

#1
Increase transparency
& data accuracy

#2
Demonstrate mitigation
action

#3
Expand outreach
